

Workshop on Cloud Computing

Notice

Date: 30/11/2019

Venue: Software Lab-VII

Resource Person: Er. Parampreet Singh

No. of Participants: 29

DDU Kaushal Kendra organized a workshop for B.Voc. Software Development on the topic **“Cloud Computing”** by Er. Parapet Singh of Zed Start Solutions, Patiala on 30 Nov, 2019 at Software Lab-VII. The different cloud computing concepts were discussed with the students.

Student Feedback

This session covered a lot of the key technologies used in cloud systems. The Students were made aware about the increasing importance of cloud computing and informed about the employment opportunities available in this field. The flow of the course was natural and well explained. There was a great balance between theory and practice. The concepts were clearly and professionally explained. The Students were very impressed with the trainer, especially his ability to make complicated concepts seem very simple.

Expert's Feedback

I highly recommend this course to anyone starting with Cloud Computing. I found this kind of workshop is extremely beneficial for the students and they keep them updated about the latest technologies. I would like to thank the college management for giving me the opportunity.

Departmental Staff Feedback

DDU Kaushal Kendra has been always making rich efforts to arrange such kinds of trainings for the students. This training has been very inspiring and the staff is really feeling delighted to have been able to be a part of it. It's been presented really well.

Report

During this workshop the students were upraised about the Cloud Computing technology, its services, and various companies that provide these services. They were also made aware various professional certifications related to this field that can students persue for their carrier advancement.
