

Best Practice-I

1. **Title of the Practice:** To provide an alternate culture to the society in the phase of contemporary scenario of eroding values.
2. **Objectives of the Practice:**

The goal of this practice of the college is to provide an alternate culture to the society at large by providing them with value based entertainment.

 - To organize an International Punjabi Conference for invigoration of the vernacular language of Punjab.
 - To undertake activities focalized upon sensitization of the youth towards their traditional values and cultural heritage.
 - To upload value based audios and videos for creating an ethos of refined sensibilities in the society.
3. **Context:** The present milieu of the state has been denigrated by the purveyance of valueless and unethical entertainment. The refining influences of poetry, music, drama and narratives have been debased by the entertainment industry leading the tarnishing of the image of the culture of Punjab. It is made to assume that the accepted and common way of life of the people of Punjab is giving to violence, addiction and indifference. The youth is being swayed by the presentation and appreciation of an antihero through the popular media of songs, movies and album videos. The character of the antihero is made attractive to the point of emulation making youth forget their cultural roots, legacy of the Gurus, and importance of their vernacular language. The young minds are bewildered at the wide gap existing between the ennobling parental values and the ignoble popular values exalting the dishonorable.
4. **The Practice:** GSSDGS Khalsa College, Patiala has taken up the initiative to bridge the chasm between the righteous values and the degeneracy spread by the entertainment industry by:
 - By launching a Web TV on You tube Channel committed to the idea of propagation of alternate culture. Videos imparting socio-ethical values to the society.
 - By organizing annually an international conference dedicated to the preservation of vernacular language of Punjab.
 - Reaching out to the underprivileged sections of the society by students along with the faculty members of the college.
5. **Evidence of Success:** Following are the lists of activities and achievements
 - Dedicated to International Mother Language Day GSSDGS Khalsa College Patiala organized an International Conference with the title of “Khalsa College Global Punjabi Conference” on the theme of Global situation and prospects of Punjabi Language on February 21st and 22nd, 2018. This Conference will be an annual feature.
 - In order to provide alternate culture to various stakeholders, Khalsa College Patiala has taken an initiative to start KCP Web TV on YouTube Channel on December 19th, 2017 with weblink: https://www.youtube.com/channel/UCDHyOIO_YANGXMVDv-cTNpA The channel has more than 3000 subscribers. On this Web TV college has uploaded following videos:

- xxi. Sri Krishan Dhiyaye, shabad on August 6th,2018.
- xxii. Raddi Di Library a short movie about the role, value and importance of books in life on November 12th,2018.
- xxiii. Satgur Nanak a Punjabi Dharmik song on November 23rd,2018.

Best Practice-II

1. **Title of the Practice** Skill Development for knowledge acquisition and upgradation of human capabilities to increase employability
2. **Objectives of the Practice:** The goal of skill development is to ensure the holistic development of the students to bridge the gap between the skills given and skills required in the employment market. For this purpose college will concentrate on the working of DDU Kaushal Kendra.

The Kendra is working on the following objectives:

- To inculcate market oriented employability among the students.
 - To conduct skill development programmes.
 - To conduct lectures/workshops on their skill enhancement.
 - To arrange industrial visits so that the students get exposure to the latest technologies which are used in industries.
 - To facilitate placements
3. **The Context:** While the Global Population is ageing rapidly, India, with one of the largest youngest population in the world, is at the strategic advantage with regards to demographic dividend. Still, the growth rate of India is quiet low as compared to the developed countries. The reason behind is the wide gap between the skills required in the industry and the skills provided by the education system. To bridge the gap between employment and employability, KAUSHAL Kendra has been established in the premises. Under DDU KAUSHAL Kendra following courses are running successfully such as B.Voc. Food Processing and Engg., B.Voc. Software Development, B.Voc. Automobile, B.Voc. Agriculture , Advance Diploma in Green House and Technology and Advance Diploma in Automobile and Auto electrical.
 4. **The Practice:** To impart employability skills to the students the KAUSHAL Kendra is engaged in giving them general as well skill education. The general education includes 30 % of the curriculum whereas skill education includes 70%. Skill education is provided them through qualification packs which are available on National Skill Development Cooperation website. The KAUSHAL Kendra open frontiers of knowledge and reveal new horizon of changes and creates positive attitudes in the students by organizing lectures and workshops. The students get a lot of exposure through their frequent industrial visits.
 5. **Evidence of Success:** The following list of activities and achievements presents evidence of success achieved by the centre:
 - Students of B.Voc. Food Processing & Engg Part I and Part II went for Industrial Training for 45 days in June-July at various reputed food industries.
