FEEDBACK ANALYSIS REPORT (2021-22)

Feedback is an important part of the learning cycle, and student learning outcome is linked to institutional effectiveness. A reliable feedback system can support institutions in collecting and understanding information for faculty development portfolios. Unlike other assessment methods feedback allows students to take an active role in their learning. As a reflective process it encourages learners to consider their strengths and identify areas for development. Students will always offer feedback if it is tied to their own improvement and success. The feedback analysis is a mechanism to check the effectiveness of teaching learning processalong with administrative activities taking place in the institute. From analysis, the strengths and weaknesses can be traced and remedial measures can be taken to improve the working ofinstitute. Moreover, this has significant effect in professionalizing teaching in the higher educationlevel. It also enables a teacher to see how teaching practice can be improved, and which teaching and learning strategies are more likely to be effective. The Feedback is obtained from all Stake Holders including students, parents, teachers, alumni and employers as shown in Fig 1.

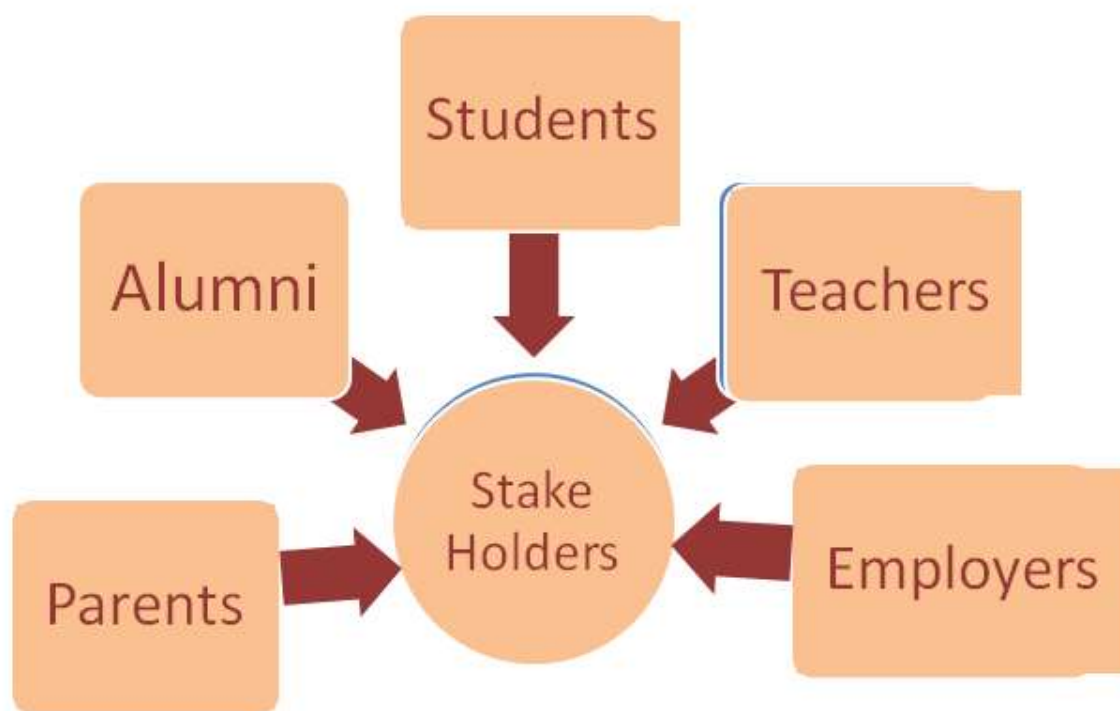

Fig 1: List of stake holders

Feedback is taken once a year from all the students of both PG and UG classes. Feedback is obtained in structured Manner in Online. PTA cell takes feedback twice years on PTM dates. Employer feedback is taken during placement drives. Teacher's feedback is taken once in year and OSA feedback is taken from all outgoing classes of PG and UG. To enhance the productivity of college, teachers motivate the students to fill feedback Performa's.

FEEDBACK PROCESS OF IQAC

- Feedback is collected from all the stake holders via online mode.
- Collected feedback responses are assessed by the IQAC team.

- IQAC shares feedback with Director-Principal.
- Discussion on Feedback with Dean's, HOD's and convenors of various cells.
- Action Course is planned.
- Action is taken to achieve the institutional vision and goals.

1) FEEDBACK FROM STUDENTS (2021-22)

The feedback activity is undertaken online by giving a link of Google form on college website.The Feedback Performa's are designed based on the two key parameters on which the students evaluate the institution. The parameters are:

• Teaching, Curriculum and Examination

• Library and Administration

During the survey a total of 2170 students participated for the purpose of first parameter and 2350 students participated in the survey for the purpose of second parameter. The data collected through the feedback form was analyzed and interpreted. The diagrammatic representation made through pie charts shows the students feedback with respect to teachers, , library and administration etc.

Data Analysis: The data obtained was analyzed using Google form.

The first parameter examined student's perceptions of their teacher's performance. For this purpose the students were asked to rate their feedback of 20 items on a five-point Likert scale. A consensus agreement has been used to describe the total numbers of students who have rated"Good or excellent" with a statement. The results shows that the majority of students reported teachers' evaluation as "good or excellent" with respect to teachers' methodology, efficiency, motivation and competence in teaching.

The second part of first parameter examined views of students on curriculum and examination. For thispurpose the students were asked to rate their feedback of 10 items on a five-point Likert scale. A consensus agreement has been used to describe the total numbers of students who have rated "good or excellent" with a statement. The results show that the majority of students reported that curriculum is time relevant and examination process is fair.

The second parameter describes the student's feedback response with respect to library facilities.For this purpose, the students were asked to rate their feedback of 6 items on a five-point Likert scale. The results reported that most of the students were satisfied with availability of books, cataloguing and arrangements of books availability of reading space, lab staff cooperativeness, and usage of Xerox facility in the library. Another part examines student's perception related to college administration. For this purpose, they were asked to rate the perception of 14 items. The result show that most of the students are satisfied with the quality level of college administration in the form of cooperation, cleanliness, drinking water, refreshments, social services, redressal of grievances, functioning of placement cell, infrastructural facilities.
